## WHAT CAN YOUR QUARTERS BUY?

I know what you are thinking, the few quarters in your pocket won't buy much these days. **But this month, your quarters are literally impacting Southeast Asia!** This story I have to share is a real tear-jerker, but you really need to know how your loose change is making a difference...

Now that its springtime here in Southeast Asia, more and more people are outside enjoying the perfect weather - including all the beggars.

The locals tell me that there are networks of beggars on the streets led by criminals. They send the elderly, the maimed, and children into the streets to beg as a trade. **They will even "create" beggars by maiming children at birth and rearing them strictly for the sake of making money.**

**Recently, I bought white roses from a man who literally has no body to speak of... No arms, no legs and only about 16 inches of torso. He lies on top of a cart with his dog beside him and sells roses for 2 kuai each (about 25 cents each) or one U.S. quarter!**

*This month, your quarters went to buying roses from this man in hopes that he will open up to the Gospel! Thank you for your priceless gifts!*

When I saw him, I felt as though the Holy Spirit was telling me to return as often as I can and buy flowers. I know that I need to always give him more than the flowers cost, and just let him become familiar with me.

Then, when the time is right, I will get to pray for him and see him made whole!

I do not know if he was born this way, or if he was maimed by criminals. **All I know is that God loves him and your quarters are opening up the door so that he will hear the Gospel!**

**Now you know that your support, no matter how big or how small (literally 25 cents) is making a difference!** The more “quarters” we receive, the more chances we will have to buy roses that can change that man’s life. Will you consider giving your “loose change” this month towards this man’s life?

Always remember that God is *good!*

*love, Carol*

Yes! I want to help you take the God’s love to Southeast Asia!
